SUMMARY

I am a software engineer with more than 14 years of experience in software development. I specialize in Java and Spring Boot, building backend systems, APIs, and integrations. My experience includes e-commerce platforms, marketplace APIs, EDI, and business process automation. I build AI solutions that reduce manual work and simplify daily operations.

TECHNOLOGIES & TOOLS:

- Languages: Java (primary), JavaScript, TypeScript, Python, C#, VBA (legacy)
- Backend: Spring Boot, Spring Framework, Hibernate/JPA, REST APIs
- Testing: JUnit, Mockito, Spring Boot Test, Selenium, Selenide
- Databases: PostgreSQL, MySQL, MongoDB
- Cloud: AWS (S3, Lambda, EC2), Hetzner servers
- Integrations: Amazon MWS/SP-API, Amazon Ads API, ShipStation, BestBuy, eBay & Walmart APIs, EDI
- DevOps & Tools: Docker, Jenkins, GitHub Actions, Maven, Gradle, Swagger/OpenAPI, Git (GitHub, GitLab)
- Frontend: React, Vaadin, Angular
- Messaging: RabbitMQ
- AI Tools: Claude Code, Codex, Skills

WORK EXPERIENCE

Senior Software & Automation Engineer – Freelance – 01/02/2024 – Current – Berlin, Germany

- Full Stack Solutions with AI inside.
- Improved business workflows by removing duplicate steps, simplifying structure and automating repetitive work.
- Integrate AI into business processes, using AI agents and AI decision making capabilities to automate manual work.
- Built task-specific AI Skills for business workflows.
- Owned delivery end to end: gathering requirements from stakeholders, developing solutions, testing, deployment and rollout support.
- Supported adoption with documentation and user guides.

Senior Software Developer – E-Commerce Company – 2016 – 2023 – Kharkiv, Ukraine

- Designed and developed Java/Spring backend services and integrations with AWS, Amazon, Walmart, eBay, Best Buy, and ShipStation APIs.
- Made architectural decisions, delivered software, reviewed code, mentored developers, and collaborated with business stakeholders.
- Built AI-assisted solutions for product content generation, order processing, and data analysis.
- Automated business workflows and integrated distributors using EDI.

Mid-Level Software Developer – E-Commerce Company – 2013 – 2015 – Kharkiv, Ukraine

- Developed backend modules for order processing, inventory management, and reporting.
- Automated data exchange and supplier document processing.

Junior Software Developer – E-Commerce Company – 2011 – 2012 – Kharkiv, Ukraine

- Built internal tools for inventory management and supplier data processing.
- Streamlined order processing, reduced errors and manual work, and accelerated product content creation.

EDUCATION AND TRAINING

01/10/2022 – 30/06/2024 Kharkiv, Ukraine
Master of Software Engineering
Kharkiv National University of Radio Electronics - https://nure.ua/en

01/09/2007 – 30/06/2011 Kharkiv, Ukraine
Bachelor's degree of Computer Science
Kharkiv National University of Radio Electronics - https://nure.ua/en

LANGUAGE SKILLS

Ukrainian (C2)
English (C1)
German (B1)
